AutoCAD Crack + Activation

Release history AutoCAD Cracked Accounts originally ran on the first Macintosh platform from 1982 until 1992. Following the 1992 release of Mac OS 8 and the introduction of the first version of AutoCAD that used the Autodesk Design Review (ADR) protocol, it was ported to the Mac OS operating system. In 1993, the first publicly available version of AutoCAD for the Macintosh was released. The first Windows release of AutoCAD came in 1994, with full supporting DGN file import and export. On the Mac platform, Autodesk initially maintained both a Macintosh-only and a universal (including Mac OS) version of AutoCAD. This was rectified by 1997, and AutoCAD was made available for the Macintosh platform only. On the Windows platform, AutoCAD was initially released in the Windows version. In the late 1990s, the first Windows release for the 64-bit version of AutoCAD was released, and since then, it has been accompanied by a universal version. In late 1999, AutoCAD's old DOS-based 32-bit version was discontinued. However, it was replaced by AutoCAD Classic. The first release of AutoCAD Windows was version 2002 (although it was then renamed as version 10.0), and was discontinued in 2016. The last release for the Macintosh version was AutoCAD R14 in 2011. In early 2018, Autodesk announced that they would release a new version of AutoCAD. It was named AutoCAD 2017 and released in October 2018. The new version introduced tools to help designers better interact with the program. Products AutoCAD 2018 for Windows AutoCAD is the world's most widely used 2D and 3D CAD application. It is widely considered a state-of-the-art industry standard, with approximately 70% of the CAD market share of desktop and mobile applications. AutoCAD 2018 is the successor to AutoCAD 2017, which was released in October 2018. New features include: New CAD Paths & Pipes tool which is available in both classic and collaborative editing modes Easy dimensions in 2D drawings The ability to insert images and video within a drawing AutoCAD 2018 is also the successor to AutoCAD 2017 for Mac. The new release was released in October 2018. New features include: AutoCAD 2016 for Windows and AutoCAD Architecture 2016 for Windows AutoCAD 2016 5b5f913d15
